one occasion has been acen conterring with Dr. Stanley Drennan.

The North Valley Mail learned a statement had been issued several years ago by Dr. Drennan. In the statement, the dostor noted the visit of President Kennedy to the Los Angeles area while enroute to Hawaii,

on Sat., June 10, 1953.

The doctor had issued his statement to delineate hurasament and threat on an American cilian by American government officials, using his more

words.

At 7 a.m. on June 10, according to the statement, two of his (Dennin's) acquaintance, one in 21 Monte, and one in West Hellywood, were visited by two Secret Service Agents of the Treasury Direc, as was a third acquaintance, and tere questioned as to Dr. Dremman's inyaity to the country. The agents, according to Dremman, were cautious in stating that they were morely obscing out ruthous, but asked if the friends knew of Dr. Dremman's plants assainate the President.

When Dr. Drennan learned of the agents' calls he telephoned the Secret Service. It was admitted, according to the dector, that he was under investigation and a meeting was arranged at Dr. Drennan's home on Wod., June 14, 1963, with two Treasury agents.

The conference consisted of lengthy questioning and warnings regarding the President and his family, both natural and official. Three different times, according to Drennan, he was accussed of planning to assassinate the President and was told he could be put away on a mental charge. His put away on a mental charge. His inquiry as to why he had not been followed on the day of the Presidential visit here went unanswered, sta-

When asked if the President should be assussinated on any future trip such as the 'upcoming' trip abroad, would be, Dr. Drennan, be the No. 1 suspect, the men angrily said "yes", reported the doctor, and warned his activities could result in observation for mental balance.

Dr. Drennan claimed to have a tape recording of the interview. On Aug. 1, seconding to the doctor, he received another call from the Internal Bevouse Pept, Informing him that he was to have his books ready for inspection on Mon., Aug. 5, 1963, at 3:30 p.m. His Certified DRENNAN

According to the doctor, the week before the assassination the employer of his son, who had spent his fil-teenth summer working at a resort in Idaho, was contacted by Secret in dano, was conducted by Service agents and questioned about his activities and about his father, Two days after the assassination, the FB1 interviewed the employer presented a photocopy of a letter the boy had written to a Los Angeles recipient, stated the doctor. The agents had said the letter was retrieved from a 'trash can'; however, said the doctor, in the cop and robber fantasy of youth, 'These boys had agreed previously to burn their correspondence immediately mon respondence immediately mon respondence. respondence immediately upon re-

There was also a representative from the subversive squad of the Califor-nia Committee on Unamerican Acti-vities that traveled from Sacramento to Idaho to inquire into the activities of the boy, the statement said,

In a personal interview with former FBI Agent George Jensen, currently acting as attorney for Eugene Bradley, it was stated by the attorney that Bradley is fighting extradition to New Orleans partially because of the enormous expenses that would be incurred personally in making such a trip. A defense fund is being solicited trip. A defense fund is being solicited in his behalf, but according to his at-torney barely \$100 has been raised, However, a personal friend who is helping solicit the defense funds quo-ted Bradley as stating after a third fund raily, approx. \$6,000, had been

raised.

Bradley had a personal interview with Madame Nhu, widow of assassinated Premier Diem of South Vistnam the latter part of Cet, 1963 in a Los Angeles Hotel, according to an acquaintance. Bradley, reportedly, made a tape recording of the interview. The friend stuted he has heard excerpts from the recording in which Madame Nhu expressed her thoughts regarding the Lennedy administration. Bradley also expressed his thoughts about Kennedy's position in Vietnam to his friend and further affirmed his thoughts to him following assassination of Kennedy.

Doer Mr. Boxley; -

Inclosed fine the enticle that lean Rey colled in. Iven regarding. I only wish a call had esen gut through to the editor to cool this temperarily as this will considerably hinder investigation at this coint. The editor, was: Charlatta Schoenkopf, is definitely pro-larmison and would cooperate totally with your office if you would just talephone her. She is a close personal friend with this fellow dise or lasse who is in charge of the extradition harring and who will advise Resgan on the extradition harring and who will advise Resgan on the ratter. She will also turn over the Drannan letter on direct word from your office and I suggest you contect her at once; do not delay. She is a conservative with considerable influence in Sacramento and is willing to go all out for extradition. She could possibly make the difference.

At the time we begined this article was to be printed we had not soon sole to determine if Draman and willing and asliciously participated to conspire to kill the President. I can tell you now, after intensive investmation of the last few days, that I believe he definitely was deeply and knowingly involved. The difference is that, on such short notice, we could not obtain the conclusive proof and witnesses that we would probably some up with had more time been afforded us.

This much I am quite certain of; - Drannan, Lerenz and Bradley were close personal friends. Drannan, sometime during the susser of '63, withdraw 15000.00 from his bank account and gave it to a government erant named Tom Brown who was supposed to be one of the original trigger use in the assessmation plot. Brown chickensed cut and apparently contacted either the FBI or the Escret Service, which action resulted in the things Drannan mantions in this lotter or statement. Yoward was a close especiate of Loronz, so he should have, if he was truthful, supplied pleaty of info on Lorenz. If he did not, then tell are Barrison to well on clearing Mouard until we can sear more on this and, by contain is that Drannan and many of these professions to well on clearing Mouard until we can sear more on this and, by contain is that Drannan and many of these professions and the first property of the is confined to his bod at prosent. Howard was a patient of Present's and I believe full was and inverse definitely was his patient.

Trannan is trying to deep that his association with the others was as close as it definitely was, but he seems to be of a sind to lay blems on the others in order to whiteward his own participation. From what I am hearing he is really creating up over the dual. A suicide or murder would not staying the in the others, and very soon. Please do not related murde this i for a tion and Dransan, with the examples and it has a fact the relation of Dransan, with the examples and it has a fact the suicide or murder.

than that dear, innocent soul Loran Hall. And I'm not exactly thrilled over his interest in me and the layout of my home at this time. My but isn't he the presperous one these days; yellow Cadillac convertible, expensive suit and imported cigars. And just a few short years ago he was berging quarters and canned goods. Now I understand he owns a ber and motel in Yerhville which is colleved to have been purchased with CIA money. Finally, I all but collided with Hell and his friend in front of the restaurant on our constr. They had mesked through the bar and were about to duck into the restaurant when they came face to face with me and a friend. This unidentified friend of Hell's recognized me right sway and was really upset. They went into the rateurant, looking cach at us and when they finally turned around another friend of mine was standing directly in front of them inside the restaurant. Hell looked like he was going for a gun and my friend graphed me and threw me acainst the building. It was a weird incident. The friends I was with were the fellows you spoke with in the motel. I am sorry we had to run into Hell that way out I think he was pointing me out to this friend of has for some masty purpose. Be much for Hell....

The friends I mantioned came to see me yesterday because the beavy one is really being threatened over this and he thinks it is the last straw with the government. In other words, he thinks he is fast approaching the end of his days. Fe is telking about soing down to New Orlean's and telling are derrison all he knows in the very near future. And I would say that no one slive knows acre about the inner apphications of the hard right than this fellow. I am sure you reslive that fact. He is now of the opinion that the CIA just about controls the entire movement.

Smp.

He asked to if I would give him by unquelified endorsement of Mr. Carrison before he does this as he is in enough difficulty as matters presently stand. And I have given him my word staut Mr. Carrison, samething I have never, ever done in any situation. For this reason by friend has convinced thimself that I must know Mr. Carrison very well, although I have twice stated to him that I have never met Mr. Carrison. So the situation will have to be handled tectfully if you should find him on your doorstop. And when I have the time I will sand you a run down on tyself, things that Mr. Carrison wight be likely to know if he had ever even talked to me. And in. Carrison will just have to take it from there. And do not forget that this fellow is as for right as one can get and that he also knows I am not. We considers as a reliable conservative but havis well aware that I do not share a great and this views.

I have thempy of percepta on the information you ested, but is an ulo at this with the horizontal name of the property of the
